

## Interview with Running Man Part 3 - Transcript

Insider51: If you've tuned in to my last two conversations with Running Man, I have one question for you. Are you scared yet? You should be. But we've only touched the surface of this thing, and trust me; it just gets worse from here.

Before we begin, I want you all to remember the risk Running Man is taking in bringing this information. I don't even want to think about what would happen to him if he gets caught. Yeah, I know, some of you are probably thinking, "Hey, he was part of this whole thing. Why should we give a damn what happens to him?" Part of me agrees with you, but you need to consider that Running Man has come forward because he knows that the things going on at Subterra Bravo are just plain evil, and he's got some serious remorse for his part in it. I'm not saying that absolves him or anything, but I am saying he's doing the right thing now, and that counts for something. So cut Running Man some slack and be thankful that someone has the balls to come forward and gives us this information. Information is power folks, and right now, here on this show, we're getting more powerful by the minute.

INSIDER51: Okay, since you can't or won't tell us anything more about the alien mental powers, let's go back to what you were saying about the "volunteers" and the genetic research being conducted by the aliens. Can you give us a little more detail about the type of research? Was there a specific type of person they were abducting?

RUNNING MAN: I mostly only know what I heard from the others. And there was one scientist or lab tech or something that talked a lot to the other guys, but I never actually talked to him. He was weird.

INSIDER51: Okay, so what did you hear?

RUNNING MAN: Well, just that the aliens were doing experiments in that gene-genetical engineering. They brought all kinds of people in there, but the ones that seem to get transferred below were women.

INSIDER51: Did you see any of these women?

RUNNING MAN: Yeah. That's why I couldn't take it anymore.

INSIDER51: What exactly did you see?

RUNNING MAN: I don't know...it's too -

INSIDER51: People need to know, man.

RUNNING MAN: I saw one...this girl, I dunno, my age maybe. She was pretty. I was there when she got brought in, and then I moved her when she got transferred downstairs. A few weeks later, we did a 'check out' transfer...

INSIDER51: Take your time, man. It's okay. What's a check out transfer?

RUNNING MAN: That's when volunteers are sent back up from the lower levels. Sometimes the scientists wanted to check them out. You know, check out their bodies.

INSIDER51: Wait, so when someone is 'checked out', they're dead?

RUNNING MAN: Yeah.

INSIDER51: And you saw this girl? The one that you transferred earlier?

RUNNING MAN: Yeah.

INSIDER51: But this isn't the first time you saw dead people in this place.

RUNNING MAN: No...but this was different.

INSIDER51: What do you mean?

RUNNING MAN: She was...just different. There were marks all over her, like, I dunno, like needles or stuff that went under her skin. And she was thin.

INSIDER51: Yeah, sounds like a human guinea pig alright.

RUNNING MAN: Uh huh. But she also was...I dunno, I'm not sure. Her stomach. It was like...you know. Bigger. Like she was pregnant.

INSIDER51: And she wasn't pregnant when she came in?

RUNNING MAN: I don't think so...it's hard to remember.

INSIDER51: That's dark, man. So what, the scientists were going to check out the fetus or something?

RUNNING MAN: No, that's the thing. It wasn't there. It was taken out. Gone...you know, just a hole.

INSIDER51: Jesus...

RUNNING MAN: Yeah...

INSIDER51: What the hell?

RUNNING MAN: ...

INSIDER51: Okay...look. Obviously, there's some crazy crap going on in that place. What else do you know? You keep saying 'down there' and 'below'? What does that mean? What's is "down there?"

RUNNING MAN: Below the quarantine on Level 4 are the alien levels. The air is different down there. That's where most of the genetical stuff is done. And where they store stuff.

INSIDER51: Store what kind of stuff? The technology?

RUNNING MAN: No, you know, the experiments.

INSIDER51: You mean the volunteers?

RUNNING MAN: Well them, too, but also the other stuff the aliens are making...I guess with the volunteers.

INSIDER51: Wait, I don't follow. What are they making?

RUNNING MAN: You know, like the clones. But they're mixing them with humans.

INSIDER51: You're saying they're combining aliens with humans? Making some sort of hybrid?

RUNNING MAN: I guess. That's what the others said. The whole level at the bottom is supposed to be full of stuff. Crazy stuff.

INSIDER51: Wait? The bottom? What level?

RUNNING MAN: Level seven. It's...wait. Hang on.

INSIDER51: What is it? Running Man, don't leave me right now. This is too good.

RUNNING MAN: I can't. I gotta go. I think someone's -
